

Global Projects Program Policies and Procedures

WPI Cell Phone Policy

WPI requires that all participants in the Global Perspective Program have mobile phones in their possession for the duration of their off-campus project/program experience. Students should discuss local options with faculty directors/advisors, obtain a phone upon arriving to the site, and submit their mobile number to on-site faculty who will provide this information to IGSD. Please be aware that using a smart phone with internet access overseas can be quite expensive, if not used wisely. Please call your carrier to talk about options for these services.
